parodontax
ACTIVE GUM REPAIR*
Healthy gums form a tight seal against teeth. When plaque bacteria builds up along the gum line, it can lead to a loose gum seal which results in bleeding, swollen and inflamed gums. parodontax Active Gum Repair helps soothe early gum problems by targeting the main cause, plaque. It actively removes plaque bacteria, enabling gums to help repair and form a tight seal against teeth to help soothe gum problems.
+ FLAVOUR ENHANCING TECHNOLOGY
Fluoride Toothpaste.
ALWAYS FOLLOW THE LABEL. Brush twice a day and not more than three times, minimise swallowing and spit out. Keep out of reach of children. Not suitable for children under 12 years. If irritation occurs discontinue use. Consult a dentist in the case of adults with symptoms that persist or children with bleeding gums, talk to your dentist or doctor as soon as possible. If you experience swelling of the mouth or face. The ends of this carton have been glued down. Do not use if carton ends are open.
* With twice daily brushing
